Armedia

Making Technology Work for You.

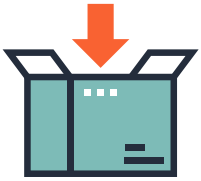
Capabilities Statement

What We Offer

Since 2002, Armedia, LLC has provided strategic technical advisory services and managed services to government and commercial organizations. From managing structured and unstructured data to providing full software development lifecycle services as well as cyber and cloud services, Armedia approaches every challenge in a vendor agnostic, collaborative way. Armedia is a CMMI Level-3 Appraised, ISO 9001:2015 and ISO 27001 Certified, Minority and Veteran-Owned Small Business (MBE/VOSB).

Application Development

- Agile Development / Dev Ops
- Custom System Configuration
- Full Software Lifecycle Delivery
- Rapid Prototyping for Requirements Analysis
- User Centered Design and Testing



Enterprise Information Management

- Document & Records Management
- Case Management
- Information Management
- Business Process Management
- Digitization & Scanning

Cloud / IT Modernization

- Cloud Adoption / Enablement
- Cyber Assurance
- Open-Source Platform (i.e., ArkCase)

What Our Clients Have to Say About Us

Using proven technologies such as ArkCase and Alfresco, Armedia is able to quickly modernize business solutions for customers. We follow an Agile methodology to deliver user-centered solutions as we have done for many organizations including, but not limited to, those listed below.

"Armedia automated our business processes resulting in over 40% improvement in efficiency in managing events and greatly reduced errors from manual processes helping to result in FederalConference.com winning the 5-year re-compete of our contract."

"We are extremely pleased with the solution that Armedia provided us... successfully complet[ing] the task of migrating over 3 million pages of hard copy files into a secure hosting document management environment. The simple, yet functional user interface allows our employees to quickly and efficiently search and find the information they need to do their job."

"[The] Armedia team was very proactive and forward thinking and found ways to reduce paper on the Imaging Release...The team worked closely with the CIO team...gain[ing] the trust of both business and CIO teams on the project...Given what I know today about the contractor's ability to execute what they promised in their proposal, I definitely would award to them today given that I had a choice."

"I cannot say enough about Armedia's unwavering support, never-say-die attitude and work ethic in helping CMS [improve]. [They] have been a rock on this project, especially in the 5.1 upgrade to Alfresco."

Our Solution Enablers

ArkCase

A modern, configurable IT modernization platform used to accelerate transformation initiatives and implementation of business solutions.

Armedia Content Cloud

A FedRAMP-moderate content services platform that leverages ArkCase, AWS, Alfresco, Documentum, and Ephesoft for document, business process, case, imaging, and records management.

Caliente

A bulk content migration framework for Enterprise Content Management (ECM) platforms.
